

Series 500C

Maximum Capacity: 30,000 lbs. (13.6MT)
Maximum Vertical Reach: 115 ft. (35.1m)

The Series 500C medium-to-heavy-duty telescoping crane offers many new features including a split (two-piece) console cover for fast accessibility to valves and wiring; an improved high performance winch providing precise load placement; and an upgraded wiring system with shrink wrap terminal connections to prevent corrosion. Two lower sheaves in the sheave case allow four-part reeving without attaching an additional sheave at the end of the boom.
